## II. Statement of Claim

Briefly describe the facts of your case. Describe how each defendant is involved, names of other persons involved, and dates and places. Each claim should be stated in a separately numbered paragraph. Please use short and plain statements, with separately numbered paragraphs indicating why the relief requested should be granted. Do not include legal arguments or cite cases or statutes.

Attach additional pages, if necessary.

Equal Employment Opportunity Commission conspired with Miami-Dade County and Miami-Dade County Attorneys  
during the complaint and charge process. The EEOC should have remained neutral and transparent. Miami-Dade  
County's Human Rights Division abandoned the internal complaint and did not follow local or state rules in regard to  
the formal complaint. One of the salaried attorneys was in direct contact with an investigator within the EEOC. This  
is unlawful and a violation of both protected complaint processes. The South Florida Work Force Investment Board  
ignored claims by Plaintiff and other applicants who experienced discrimination across managed locations. Career-  
Source is the public entity that allows for applicants to apply for work postings. Thus, local, state, and federal  
equal employment opportunity practices should guide all activities.

## III. Relief Requested

Briefly state what you are requesting from the Court (what do you want the Court to do). Do not include legal arguments or cite cases or statutes. Attach additional pages, if necessary.

Plaintiff asks the Court for formal investigation into these matters across each mentioned setting. Plaintiff attests  
the incidents and occurrences are true and has record of the original grievances. Plaintiff asks the Court for an  
opportunity to guide independent research initiatives to reveal a correlation between the widening employment and wealth  
gap. Plaintiff wants to examine for a decrease in equal opportunity and gainful opportunities for the indigenous Black  
African American community and other African groups not limited to those of the Caribbean, African itself, and other  
Black designated groups. The sought correlation seeks to show a perfect positive relationship between the lack of  
equal employment opportunities, wealth, and increased risk factors associated with declines in health, education, etc.
